Novalis® sets office floor trends at CIFF

Shanghai World Exhibition Center

Sep 10-13, 2018

The 42nd CIFF (China International Furniture Fair) was held in the World Exhibition Centre in Shanghai. This year, the total number of international visitors and exhibitors reached a new record. With no doubt CIFF has become an important forum for the leading brands to showcase their furnitures, textiles, and interior systems for both residential and commercial usage.

As topics like “more productive office”, “wellbeing design” and “work and life balance” have become the key words when it comes to office design, constructional products like flooring can never just be something to walk on. Many features are now required when architects and designers decide their material selection. Novalis has always been an engaging Green LVT producer and advocator from China. This time on CIFF, Novalis successfully cooperated with several renowned furniture brands to showcase refreshing commercial and corporate interior ideas, which set the trends for both decor and wellbeing design.
